Anjitesh Shandilya, a Bachelor of Technology student at the University School of Information, Communication and Technology, specializes in web development, full-stack development, machine learning, and AI. Combining strong technical expertise with excellent time management and organizational skills, he is well-equipped to tackle challenges and excel in dynamic, tech-driven environments

EDUCATION

- **University School of Information, Communication and Technology**
  Bachelor of Technology - Information Technology
  Delhi, India
  November 2022 - Present
- **Kendriya Vidyalaya Vikaspuri**
  12th CBSE- 93 %
  New Delhi
  April 2020 - March 2022
- **Delhi International School, Dwarka Sec23**
  10th CBSE - 93 %
  New Delhi
  April 2007 - March 2020

SKILLS SUMMARY

- Languages: C, C++, Ruby, JavaScript, Java, Python, MATLAB
- Frameworks: ReactJS, NodeJS, Ruby on Rails, AngularJS, Django, Flask, Spring Boot, TensorFlow, PyTorch, Scikit-learn
- Database: MongoDB, MySQL, SQL, MS Access, Firebase
- AI/ML Tools & Technologies: TensorFlow, PyTorch, Scikit-learn, Keras, OpenCV, NLTK, Pandas, NumPy, Matplotlib, Seaborn
- Soft Skills: Leadership, Adaptability, Event Management, Time Management
- Other Skills: Frontend Responsive Design, Backend, APIs, MERN Web Development, AI/ML Enthusiast, AWS, CAD

PROFESSIONAL EXPERIENCE

AI ML Intern, IBM-CSRbox
July 2024-August 2024

- Collaborated with cross-functional teams to implement data-driven algorithms and models using Python, enhancing the accuracy of machine learning systems.
- Developed software solutions to address business challenges by applying data structures and algorithms, resulting in increased efficiency in predictive analytics tasks.
- Participated in code reviews and debugged existing modules to optimize ML workflows, improving overall system performance.
- Implemented preventive maintenance strategies, resulting in a 20% decrease in downtime.

Web Development Intern, NexusLogic Technologies
Sep 2024 - December 2024

- Developed dynamic, responsive user interfaces with JavaScript and React.
- Assisted in scalable web app development using Node.js and Java.
- Conducted unit testing and supported CI pipelines to ensure software quality.

Web Development Intern, Younity
Jan 2024 - March 2024
Data Analyst Intern, RINEX
Marketing Intern, edernity
Jan 2022 - Present
Freelance Development and AIML Projects

POSITION OF RESPONSIBILITIES

Association for Computing Machinery,ACM USS
Video Lead and Executive member **Nov 2022 - Present**
Managed team,created promotional materials, and organized successful events, showcasing strong design, creativity and leadership skills.

Graphics Lead and Designer **Nov 2022 - Mar 2024**
Led graphics team for Nature Club, creating 20+ posts and news-shorts. Promoted events like tree plantations, bird watching, wildlife talks, and nature walks.

CERTIFICATIONS

- **CyberSecurity Foundation Professional Certificate-CSFPC**
- **Participated in Girl Script Summer of Code 2023**
- **Participated in Girl Script Summer of Code 2024**
- **Several techstack certifications from letsupgrade**
- **Web Development Bootcamp - Udemy (Issued: August 2022)**
- **Advanced OfficeSuite Certification -Microsoft (Issued: Apr2023)**
- **Several work simulations from job forage**

PROJECTS

Piston Exclusives
Spearheaded brand creation, product design, and market positioning, catering to automotive enthusiasts with unique, high-quality apparel. Successfully built a niche brand recognized for its innovative approach to blending fashion with automotive culture.

withU247 - Mental Health App:
- The WithU247 Mental Health App is a comprehensive platform designed to support users in managing their mental well-being Tech: React Native,Node.js, MongoDB, Firebase Authentication, AWS, Git and GitHub

AttendUS - A Web based Attendance App:
- A Web based attendance monitoring solution which will give overall summary of a students attendance along with proper subject wise analysis. Tech: HTML, CSS, DB

Making Several AI/ML projects
